APTITUDE TEST

General Aptitude Mobile Evaluation

GAME provides your candidates with a brand positive, mobile, anywhere, anytime test of their abilities. People who score better on GAME are more likely to excel at solving problems, understanding and applying information, learning new skills, and thinking critically.

- 1. The top of the first page of every **GAME** score report displays the candidate's information, including the candidate's name, position applied for, the date the candidate took the assessment, and the Test Event ID.
- 2. The Results Summary provides the applicant's Percentile ranking compared to our global norming group.
- 3. The Test Event ID is given to candidates at the beginning of their assessment and is used if they encounter any issues during the test. They simply return to www.oda1.com, enter their Event ID, and then they can continue their assessment from where they left off.

Results Explanation

The **GAME** measures 3 abilities: Attention to Detail, Verbal Ability, and Numerical Reasoning. These scores are broken out into separate percentile rankings.

Attention to detail is the ability to focus on detail-oriented tasks with thoroughness and accuracy.

Verbal ability measures verbal reasoning, which dictates communication skills and comprehension.

Numerical reasoning measures numeracy, quantitative problem solving, and number fluency.

Results Details
