

Emotify

Emotional Intelligence Assessment

A game-based assessment of emotional intelligence.

Measures:

- ✓ Emotional perception
- ✓ Emotional understanding

Estimated Time: 20 minutes

Emotify is an ability-based measure of emotional intelligence that assesses a candidate's ability to accurately perceive and understand emotions. It features two engaging, interactive assessments which together take about 20 minutes to complete. Research has shown that emotional intelligence, or EI, is associated with important work outcomes such as interpersonal effectiveness, collaboration and teamwork, motivation, and decision-making.

EMOTIONAL INTELLIGENCE

Emotify

Emotify is an ability-based measure of emotional intelligence, measuring a candidate's ability to accurately identify and understand emotions. Research has shown that emotional intelligence is associated with important work related outcomes such as interpersonal effectiveness, collaboration and team work, decision making and success in leadership and management roles.

Results Summary

80th Percentile
 Above Average

Results Details

Lisa's overall Emotify score was higher than 80% of the general population, which indicates that they are likely to:

- Display high levels of emotional intelligence when interacting with others, working in teams, and making decisions
- Be able to accurately read and interpret emotions displayed by others, and therefore respond accordingly
- Have a strong awareness of emotions and their impact on self and others in different situations
- Have the capacity to successfully build and develop relationships with others, such as colleagues, customers and clients
